# INTRODUCTION

The study of business dynamics is one of the main sources of economics studies, providing structural information and data that allow to better understand the economic and social aspects of a territory.

In fact, statistical surveys are not only instrument of knowledge for all users, but they are crucial tools for the decision makers in the public and private sectors, researchers and planners.

One of the key functions of the Chambers of Commerce is actually the analysis of local economy data, providing enterprises with in-depth information of the socio-economic situation in the area.

The Chamber of Commerce of North Sardinia monitors its economic system, in order to assist entrepreneurs in decision-making.

Through its Statistical and Research Office, this Chamber of Commerce analyses social and economic phenomena publishing "**Statistical Indexes**", the "**Survey on Business Dynamics**" and the "**Economic Survey of North Sardinia**". "**Statistical Indexes**" are quarterly updated, whereas the "Survey on Business Dynamics" and the "Economic Survey of North Sardinia" are annually published. The "Survey on Business Dynamics" focuses the attention on enterprises data, while the "Economic Survey of North Sardinia" takes into account many other economic and social aspects (such as agriculture and agro-industry, foreign trade, credit, national accounts, employment, manufacturing, services, etc...).

## **The great performance of North Sardinia**

Comparing 2014 with the previous year, enterprises growth rate in North Sardinia has registered a +0,83% (the province of Sassari +0,37% and the province of Olbia-Tempio +1,52%), with 57.493 registered enterprises, of which 47.414 operating. Italy and Sardinia as well have recorded a positive growth rate (respectively, +0,51% and +0,61%).

## **Better than last year**

In 2012, the growth rate of North Sardinia was +0,33%, whereas in 2013 +0,47%. The positive trend of 2014 in North Sardinia (+0,83%) has influenced also the whole Region (+0,61%), that had recorded a negative growth rate in 2013 (-0,05%). Most of the enterprises are headquartered in Cagliari (41%) and Sassari (33%), whereas businesses located in Nuoro and Oristano compose respectively 17% and 9% of the total firms of Sardinia.

### **Business dynamics by sector and municipality**

In the province of Sassari the most affected sectors are construction (-2,68%) and transportation (-2,30%), whereas in Olbia-Tempio the worst performance has been registered by mining and quarrying (-3,73%). Considering business dynamics by sector, services play the most important role. With regard to the main municipalities of the territory, the highest growth rate has been recorded by Olbia (2,9%), followed by Porto Torres (1,4%), Arzachena (1,3%), Alghero (1,12%) and Sassari (0,96%).

### **Legal forms**

The "società di capitali" have registered a positive growth rate (4,94%), whereas the "società di persone" (-1,75%) and the imprese individuali (-0,05%) have decreased. However, the "imprese individuali" represent 57% of the total enterprises of North Sardinia. The cooperative businesses in North Sardinia are 732, whereas in the whole Region they total 2.800.

### **Innovative start-ups, youth and women enterprises**

5.093 youth enterprises are located in North Sardinia, while 21 are the innovative start-ups registered in the territory, most of them operating in service activities. They constitute 18% of the innovative start-ups headquartered in Sardinia. 10.754 women's enterprises are operating in North Sardinia, mainly in trade and service activities.

### **The Chamber's activities**

In order to support the enterprises in this critical period, the Chamber of Commerce of North Sardinia has invested especially in promotional and training activities. Indeed, in 2014 this Chamber has granted more than 100 vouchers to flooded enterprises in Gallura, to start-ups, to innovative businesses and to women's enterprises. Furthermore, the Chamber has supported the participation of the local firms to national and international fairs. In collaboration with different Trade Associations, the Chamber aims to realise development projects for the enterprises of North Sardinia.

The Managing Director  
Pietro Esposito

The President  
Gavino Sini

# GLOSSARY

**Registered enterprise:** enterprise registered in the Italian Business Register. The Italian Business Register is a public register which, as already provided for within the Civil Code, has been fully implemented since 1996, by the Law in relation to the reorganisation of the Chambers of Commerce and with the subsequent Implementing Regulation. The aforementioned Law established an Italian Business Register Office at each Chamber of Commerce. The Italian Business Register can be defined as the register of company details: in fact, it contains information (incorporation, amendments, cessation of trading) for all companies with any legal status and within any sector of economic activity, with headquarters or local branches within the country, as well as any other subjects as required by law. The Italian Business Register provides a complete picture of the legal position of each company and is a key archive for drawing up indicators of economic and business development in each area to which it belongs. Enterprises with many local branches are registered at the Chamber of Commerce where they set up their headquarter.

**Operating enterprise:** enterprise carrying out activities.

**Start-up:** a newly established business.

**Shutdown:** enterprise that has stopped doing business or operating permanently.

**Business sector:** it indicates the kind of activity carried out by the enterprise. A firm and its own local branches may undertake one or more types of activity. In Stockview, enterprises are classified taking into account the main activity of the business. Since January 2008 Istat has adopted the new ATECO 2007 classification of economic activities. This classification is the national version of the European nomenclature, Nace Rev. 2, published in the Official Journal of 20 December 2006 (Regulation (EC) no 1893/2006 of the European Parliament and of the Council of 20 December 2006). NACE is the acronym (derived from the French title "Nomenclature générale des Activités économiques dans les Communautés Européennes", Statistical classification of economic activities in the European Communities) used to designate the various statistical classifications of economic activities developed since 1970 in the European Union. NACE provides the framework for collecting and presenting a large range of statistical data according to economic activity in the fields of economic statistics (e.g. production, employment, national accounts) and in other

statistical domains. Statistics produced on the basis of NACE are comparable at European and, in general, at world level. The use of NACE is mandatory within the European Statistical System. The classification structure is identical for the first four digits. The NACE Regulations allow Member States to use a national version derived from NACE for national purposes. Such national versions must, however, fit into the structural and hierarchical framework of NACE. Most of the Member States have developed national versions, usually by adding a 5th digit for national purposes. Italy has added two additional levels. All the charts of this study follow the ATECO 2007 classification and the following grouping:

Sector	Included Economic Activities
Agriculture and fishing	'A' Agriculture, forestry and fishing
Mining and quarrying	'B' Mining and quarrying
Manufacturing	'C' Manufacturing
Electricity-Gas-Water	'D' Electricity, gas, steam and air conditioning supply 'E' Water supply, sewerage, waste management and remediation activities
Construction	'F' Construction
Trade	'G' Wholesale and retail trade; repair of motor vehicles and motorcycles
Transportation	'H' Transportation and storage
Hotels and restaurants	'I' Accommodation and food service activities
Services	'J' Information and Communication 'K' Financial and insurance activities 'L' Real estate activities 'M' Professional, scientific and technical activities 'N' Administrative and support service activities 'O' Public administration and defence; compulsory social security 'P' Education 'Q' Human health and social work activities 'R' Arts, entertainment and recreation 'S' Other service activities 'T' Activities of households as employers; undifferentiated goods-and services-producing activities of households for own use 'U' Activities of extraterritorial organisations and bodies
Non-classified activities	Without ATECO code

**Società di capitale:**

they are characterised by:

- Legal personality, autonomous from company owners' personality;
- Limited liability for company owners, i.e. each owner's liability is limited to the cash or assets he/she has contributed to the company. Stockview distinguishes between eight different types of Società di capitale:

- 1°) Società in accomandita per azioni
- 2°) Società per azioni con unico socio
- 3°) Società a responsabilità limitata a capitale ridotto
- 4°) Società a responsabilità limitata semplificata
- 5°) Società per azioni
- 6°) Società a responsabilità limitata
- 7°) Società a responsabilità limitata con unico socio
- 8°) Società europea

**Società di persone:**

they have no separate legal personality. Therefore, they are characterised by unlimited joint and several liability of partners for company obligations. In Stockview, there are 7 main forms:

- 1°) Società in accomandita semplice
- 2°) Comunione ereditaria
- 3°) Società semplice
- 4°) Società di fatto
- 5°) Società irregolare
- 6°) Società in nome collettivo
- 7°) Società tra professionisti

**Impresa individuale:**

ownership and control of the business rests with a single individual. The individual is not separate from the business and has sole unlimited personal liability for the business, its debts and contractual obligations, and any claims against it. Stockview considers impresa individuale:

- 1°) Impresa individuale
- 2°) Impresa familiare

**Other (legal forms):**

other types of legal forms different from:

- Ditta individuale
- Società di persone
- Società di capitale

There are more than forty types of other legal forms. The most common are:  
1°) società cooperative and società cooperative a responsabilità limitata (the most numerous)

- 2°) consorzio
- 3°) consorzio con attività esterna
- 4°) società consortile
- 5°) società consortile per azioni o a responsabilità limitata

**Women's enterprises:**

enterprises in which at least 51% of the beneficial ownership interests and 51% of the voting interests are held by women.

**Youth enterprises:**

enterprises in which at least 51% of the beneficial ownership interests and 51% of the voting interests are held by people aged "under 36".

**Innovative start-up:**

it is a limited company, also incorporated in the form of cooperative, under Italian law or a Societas Europaea, having as its sole or core business the development, production and marketing of innovative goods or services with high technological value.
